

VIRGINIA MANGO PAPARAMBORDA

+15 YEARS OF EXPERIENCE
FRONT END DEVELOPER
WORDPRESS DEVELOPER
UX/UI DESIGNER · GRAPHIC DESIGNER

As a developer with a solid background in design, I specialize in creating digital experiences that seamlessly blend functionality and aesthetics. My freelance work has allowed me to become an autonomous and solution-oriented professional, adept at managing projects of all sizes, from large-scale initiatives to custom solutions.

I have extensive experience with a range of technologies, including React, React Native, and CMS platforms like WordPress, and I'm always driven to select the right tools to build innovative and effective solutions.

WORK EXPERIENCE

2009 - today / **Freelance**

Wordpress developer | Frontend development | App developer | UX/UI Design

I specialize in creating custom digital solutions, evaluating each project to find the ideal balance between design and development. My focus is on building dynamic, high-performance websites that ensure a fluid user experience.

I was a consultant for 10 years for the BID's Foromic project, I was responsible for creating the websites for the annual events, ensuring visual consistency and usability across all platforms.

2022 - 2025 / **Eightroom**

Wordpress developer | Frontend development | App developer | UX/UI Design

As Developer and UX/UI Designer, I was responsible for the end-to-end management of digital projects, from designing in Figma to final implementation. This approach not only improved product quality but also reduced development time. I specialized in customizing WordPress with exclusive plugins and templates to optimize content management.

My work also centered on optimizing the structure and performance of landing pages and websites by improving HTML and CSS and implementing technologies like React. This ensured that the solutions met each business's needs, offering a design tailored to the target audience for an optimized user experience. Additionally, I was responsible for the complete redesign and programming of their live sports information and statistics application for Android and iOS, autonomously managing the design, front-end development, coordinating the endpoints with the back-end and publication on the stores.

2001 - 2008 / **GegaMultimedios**

Graphic Design | UX/UI Design | Frontend development

From my role in the design department, I took on the responsibility for all creative direction. Over time, I implemented the web development area, which grew to enable the creation of larger and more complex digital projects.

EDUCATION

2007 - 2013 / **Bachelor's Degree in Art and Graphic Design (6th year)**

Universidad de la República, Facultad de Artes IENBA. Approved, thesis pending.

2005 - 2006 / **Bachelor's Degree in Communication Sciences (1st year).**

Universidad de la República.

2000 - 2002 / **Technical Degree in Infographics.**

Universtario Autónomo del Sur / Escuela de Informática.
